QUALIFICATIONS:

I have over 20 years experience with GM warranty claim collection, 17 years with Chrysler warranty claim collection, and 10 years with Ford warranty claim collection. Along with past experience with Nissan, Suzuki, and Mazda warranties, I have also had more that 26 years of experience with RO billing, service and body shop repairs. This ensures that the companies I work for get all the money that they're entitled to. I know the factory rules and can easily identify any missing parts or labor. I am currently working for six dealerships in my area and you may call any of the listed companies for reference.
